Overview of the Fund Series

GoalPath Fi360 Funds are designed to manage risks that face retirement plan investors when it comes to replacing their income. The Funds take into account the transfer of human capital (current and future earnings power) to financial capital (retirement savings) over time. As retirement approaches, the Funds recognize this shifting risk and gradually change their asset allocation, holding more growth-focused assets (stocks and bonds) when an investor is many years away and more inflation protected hedged income securities (TIPS) as the target retirement date approaches.

Investment Selection Process: An Evidence-Based Approach

Our Academic Review Committee’s investment selection process combines robust academic research, Modern Portfolio Theory, rigorous testing and thorough peer review to select the investment lineup.

The Fi360 Fiduciary Score®

The **Fi360 Fiduciary Score** is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The Fi360 Fiduciary Score is calculated on a monthly basis for investments with at least a three-year history. The score is calculated for open-end mutual funds, exchange-traded funds, collective investment trust funds, and group retirement plan annuities.
